Have you received EMFF funding? How did you get on?

Decided not to apply for EMFF funding? Want to tell us why?

Please come and let us know your thoughts on EMFF to feed into future funding schemes

Risk & Policy Analysts (RPA) Ltd have been commissioned by Defra to carry out work on the evaluation of the European Maritime and Fisheries Fund (EMFF) and its implementation in England and the devolved administrations, Northern Ireland, Scotland and Wales.

We are talking to grant applicants and those who decided not to apply to gather their views on EMFF. The work shall consider why applications have or have not been made and what issues have arisen. It will focus on social impacts, complementing the mid-term evaluation of the EMFF to be commissioned by the MMO.

If you would like more information about the project, please contact Elizabeth Daly by email (Elizabeth.daly@rpaltd.co.uk).
