## MSN 1871 Code of practice for the safety of small fishing vessels

**LIFERAFT:** Requirements for Liferrafts on open vessels of 7m Registered Length and over and decked vessels of 7m (L) to less than 10m (L) will come into force 23 October 2019.

**PLB/EPIRB:** The requirements for the carriage of EPIRB and PLB for existing vessels will come into force 23 October 2019.

**LIFEJACKET:** In accordance with MGN 588 (F), unless measures are in place which eliminate the risk of fishermen falling overboard, all fishermen must be provided with, and must wear, PFDs or safety harnesses. The measures eliminating the risk of Man Overboard must be documented in a written risk assessment.

Vessels registering as fishing vessels for the first time, or re-registering after an absence of 6 months or more, must comply with all the requirements of the Code immediately.

When you wear a lifejacket with PLB, the lifejacket keeps you afloat whilst the PLB notifies the Coastguard of your location.
